

Call for Posters

Thank you for your interest in submitting a poster for FRON 2019. The session is scheduled on Saturday 14th September 2019.

Submission, Registration

The presenting author is required to register and send the poster picture "Power Point Format" by Maximum September 2nd, 2019 on vanessa.seklawy@sciencepro.me. Author is informed by mail of poster acceptance by September 9th, 2019.

About The Poster

The following poster presenter guide was designed to provide information and guidance for developing quality poster (abstract presentations) at the FRON

Primary/Presenting Authors

It is the Presenting Author's responsibility to inform coauthors that the poster has been accepted. Only the primary/presenting author or a listed coauthor should present the Poster. Advance notice of any change of presenter is required for proper acknowledgment.

Display Diagram

- You may mount display components on a corkboard maximum, a hanging board will be provided.
- Dimensions and attachment: Size: 48" w x 36" h (122cm w x 91cm h); Printed Recto - Lamination Matte – Portrait Format
- Suggested font sizes:
 - ✓ The title should be capitalized with lettering 2cm high (72 point) at least.
 - ✓ Authors and affiliations should be 11mm high (42 point) at least.
 - ✓ Text lettering should be 5mm high (18 point) with a line thickness of 1mm at least.
 - ✓ Be careful also in your use of colors, some people are red-green colorblind and some colors do not stand out in contrast to others.
- A sign with your poster number will be offered. It should be stickered in the upper right-hand corner of the corkboard.

Poster Preparation

- Plan to give short informal presentations as clusters of attendees gather near your display. At times you may want to give a brief overview, answer questions, etc.
- Content :
 - ✓ Information should be well organized and concisely presented. Your poster could include the following sections:
 - ✓ Title: short and informative.
 - ✓ Abstract: should be informative. The aim is to put your work into context.
 - ✓ Materials and Methods: these have to be short but remember to include them without incomprehensible acronyms etc. Others want to know clearly what you are doing and they might want to use some of the same materials or methods.
 - ✓ Results: you are very limited in what you present. Choose the material which best explains what you have found and which can be logically developed, do not put in too much information), do not put in graphs, pictures, tables, etc. which have no explanation.
 - ✓ Discussion/ Conclusions: have your results provided an answer to the questions that you originally posed? If not, are there alternative answers?
- A Poster presents content using charts, graphs, illustrations, and/or photographs as printed/mounted visuals.
- Make sure that your material is presented in a logical and clear sequence so that people can read it and understand it. If you wish, you can provide the audience with copies of the poster reduced in size
- Presenters are responsible for assembling and dismantling their posters in a timely fashion at the beginning and at the end of the event.
